**Subject:** Veciana pull  
Sorry I didn't get this to you earlier today (FRI), but I got diverted by various other things and -- despite your express instructions -- the project got a little out of hand. In any case, I pulled a pile of original HSCA docs from the files for you to scan and for me to copy later for the Veciana notebook Manuel wants to establish. Should you get in earlier than me (which is a strong likelihood) on Monday and want to plow through the Veciana stuff in relative peace, it's on the bottom shelf at the end of the HSCA numbered files in the SCIF... Row 6-B. Thanks again for the good news earlier today.
