**Subject:** Copies of Boxley files and Wallace Milam query

The interns have been making copies of the files Wallace Milam gave us; they should be done sometime today and it is my intention (after speaking to Tracy about mechanics) to FedEx the newly copied set to Milam later today. I presume this is OK -- let me know if (for whatever reason) it isn't. Second, when we met at Martin, Milam was pressing me on what we had done to follow up on various things he has recommended we do in his multiple faxes. One of the things he asked about was what we had done to follow up on the Beschloss (The Crisis Years) reference to Richard Helms having been asked by LBJ for an independent CIA study of the assassination. I know that, when you and Bob met with Helms, he denied there was any such study and did not recollect telling Beschloss anything to that effect. Question: have we approached current CIA folks with this question and, how much if anything can I tell Milam about our efforts at this point?
