Subject: State Department
I just spoke with Patrick Kennedy's secretary. She remembered I had called last week and that we were especially concerned about Moscow and Minsk. She said the letter went out and would have been posted either Friday p.m. or Monday a.m. I told her that I was concerned that we had not received it and that you had to report to the Board on this. She has to complete what she is working on right now but early this afternoon will fax us a copy of their letter to us.
