There are three boxes of the Numbered Files which weren't reviewed by the students as part of my earlier database verification project. I'll be doing these three boxes myself at NARA II today, and will enter them into the computer after I get back. I presume you aren't going to be doing any cross-referencing macros in the meantime, but just in case you may want to check with me to make sure I've got these last 3 boxes entered before you run anything. Thanks.
