Subject: Ongoing J Track cryptic notes
Requested New Views 1. Assigned to:/task/date due: 2. SubProject Leader/Subproject/StatusCross references problems. I tried to cross reference. Example in photo/audio cross ref to autopsy photo. I tried to cross ref Mexico City and it didn't work! Photograph expert cross references created a new Autopsy/Medical Project!Print view overlapping. Develop leads form categories. Tasks alphabetized rather than in preferred chron order (in order that the task was made). Can they be put in chron order from time of entry? Can subprojects (leads) be transferred to another subproject? Add: source pick list for Leads Insert spaces after colons for views. Space between assigned and completed.Is it possible to make a quick button for leads (access from anywhere in Lotus) such as is the case for e-mail?
