**Subject:** Bethesda etc. reviews  
I think it would be good for you and Doug to visit Bethesda, AFIP, and NPC and make contact so that Doug can do a search of Archives and any other kind of files. Doug should also probably check with the Smithsonian for U-2 items, though I don't think it is worth his spending too much time. If there are records of the type we are pursuing, I doubt they will be in the Smithsonian.
