Subject:	Notes server diskspace
Body:	David we are starting to run out of disk space on the Notes server, I would like to discuss some ideas with you about how to fix.Options for discussion:1. Purchase 1 large 4.2 gig drive and move the notes files to it.2. Purchase 3 large 4.2 gig drives and redo server. (gives best file protection)We have one extra 1 gig drive on the Novell server but I am currently using it for Backups of software, with our push into win95 it has been very helpfull where it is. Also it is not big enough to help us out.
