Subject: Ude-Spielberg
George:I got your phone message (a few weeks ago) concerning Frau Ude and her application to work on the oral history project. I put off returning your call until a less hectic time but understood from your message that you were simply giving me a heads-up. Having heard nothing, I got the sinking feeling that I had failed to do something. Have I? I am willing to write "proactively" in support of her application. Please let me know if i should be doing something to help.Do you have any news about Herr Semrau and his medical condition?I got a long and strange e-mail from Lou Dorny who is living and working in the Russian Far East for an American telecommunications firm. He reported that his wife had divorced him. Valerie left our staff in May, but i was able to convince her to return as my special assistant. She starts (again) next week. I hope all is going well with you. Regards,David
