Subject: Letter for Steve Tilley
Please handle this. Chet installed one of our computers at NARA for the militaryteam. He should be able to identify from the inveotry which one he took.To: David Marwell/ARRBcc: From: Christopher Barger/ARRB Date: 08/28/96 04:31:15 PMSubject: Letter for Steve TilleyDavid, Steve called this afternoon... NARA is doing an inventory, and the people running it have asked him to get something from us in writing re: our computer currently up there for use in RIFing. They need us to confirm that it belongs to us, that we know it is there, and list for them the identifiers, such as bar code or serial number. I don't know if you or Chet would know this information. I am planning on going up to Archives most of the day on Thursday; I could, if given the required info, draft a letter for your signature first thing on Thursday morning, then take it up with me on the 9:00 or 10:00 shuttle. If you know the info, please just e-mail it to me and I will get that letter done right away when I get in. Thank you.
