Subject: info.
I am reviewing Sam Kinney's statement for the HSCA again, and I have come across some items that you probably already know but I thought you might find interesting if you haven't noted them. One is that Dr. Burkley had an aide, Chief Petty Officer Tommy Mills, who received Kinney's message that he had a skull fragment from the limousine. Have we contacted Mills?The other item is Kinney's stament that when the White House field office learned of his plan to drive the limousine to the White House, the WFO [no name] sent 6 or 7 Park Police to escort Kinney to the White House garage. Does that strike you as odd?
