Subject:	Final Determination Notice for HSCA Consent Database documents
Body:	Chet, as you'll recall, you devised a specific form override form ("NARA-HSCA Coversheet"), for use with the consent database, for referred-by-NARA, returned-to-ARRB HSCA documents. Brian (who will be taking over my HSCA responsibilities) and I are preparing piles of documents to go out to NARA from the Board's July meeting. We'd like to run the 117 FDNs for the HSCA consent documents associated with this meeting, but -- as you may recall -- the override form doesn't automatically put a new or more recent Board meeting date in the text of the FDN, and presently it comes out referencing the May Board meeting. Can you fix this for us? Kevin has suggested, and my translation is no doubt confused, connecting the override form with a macro that allows us to associate a given batch of consent releases with a meeting date?Brian and I would like to get HSCA documents associated with the August meeting ready to go, as well, so that Brian doesn't have to put together these piles by himself after I'm gone (for meetings and documents he had no personal involvement with).Thanks!
