Subject: INS files

I've only been able to discover one record which appears to be a collected INS file of sorts in the HSCA collection. It is 112 pgs. in length, focused on Marina's entry into US and open in full. The RIF is in your box (attached to a hardcopy of this E-mail). I'd be happy to pull it for you if you'd like. The RIF references WC Document 363, much of which has already been published as CE's in the published WC volumes. Brian and I could check Document 363 in the WC records at NARA II and see if it's open in full at this point. I also found two Church Committee RIFs for what appear to be major Warren Commission INS files, also open in full according to their RIFs (these would have to be checked at NARA II, of course). Brian and I could check these out, too. Let me know what else you want Brian/I to do.
