Subject: Last 3 Kathleen Cunningham documents

There were three non-HSCA records on K. Cunningham's list (you'll recall that all the HSCA records were, in fact, open, and we forwarded them to her last week); one FBI and two USSS (latter from WC era). Brian and I checked the WC/USSS records at Archives II, and Kevin was good enough to run down the FBI record. All three are, in fact, still referred. Let me know if you want to see them. If we tell Kathleen about them, I assume she'll ask when the Board expects/hopes to process them. Also, as a function of running down these records, I have reminded Joan that there is a box of WC-era USSS documents which the Secret Service has yet to review.
