**Subject:** Additional information re: Carl Belcher

MISCELLANEOUS ACTIVITY Issue # 75Document's Author: Dave Montague/ARRB Date Created: 10/11/96Medical ProjectSubject: Carl W. BelcherDescription of Activity Information indicates Belcher is currently an "employee" with the Washington Gas Light Company, w/in the Office of General Counsel. Some background information on him is:-born Williamson, West Virginia on 05/16/1923-admitted to Bar in 1952 (DC & Kentucky)-attended Hampden-Sydney College & Duke University (awarded A.B. in 1948)-awarded L.L.B. degree from the George Washington University in 1958-current member of DC Bar Association\* If the above information is correct, it is not certain how Belcher was admitted to the Bar in 1952 when he did not obtain his law degree until 1958. My guess is that either the information is wrong, or he was allowed to take the Bar exam w/out having his law degree (which I understand some states allow), or the entrance requirements were different during that time period.Another source indicates Belcher resides in a single family detached home built in 1963 which occupies appx 18,450 sq ft. There are 2 baths, heat & a/c; the total assessed value as of 1995 is appx \$352,400.00. A different source indicates that the average assessed value (out of 43 single family detached homes) w/in this area is appx \$349,542.00. The address is: 7413 Burtonwood Drive, Alexandria, VA 22307. The property is owned by Carl W. & Nada H. Belcher.A separate source lists appx 463 cases associated with Belcher's name (hard copy of these cites provided to the ARRB Associate Director for R & A).
