**Body:** I spoke with Dave Hanzlik today at 12:40 re Minsk. He said not to worry, there is still plenty of time. If he hasn't received meeting setup info by Monday, he will call them then. But, due to what is happening there right now, they are really very busy and he doesn't want to bug them about it yet. Also, due to the situation there, we might not even be able to get their people to commit to meeting dates and times right now.
