Subject: Additional DOD referred document

This is not a Security Classified document, but I don't think we ever cleared it, either. You may want to check...To: Tim Wray/ARRBcc: Douglas Horne/ARRB From: Joseph Freeman/ARRB Date: 02/14/96 01:49:37 PMSubject: Additional DOD referred documentI regret to say I have come across an additional document referred to DOD, above and beyond those we have already sent to Stewart Aly. It is HSCA record 180-10081-10366 (attached to hardcopy of this E-Mail), a 2/22/78 memo from DOD Assistant General Counsel Robert Gilliat, re: grounds for requesting evidence of a Congressional committee's determination of its need for personnel records. This document is referred, but unclassified; moreover, I have doublechecked the HSCA set at NARA II to ensure that it wasn't already open there: it's not -- there's a withdrawal slip in the box. Let me know how you wish to proceed; since you have already established an ongoing relationship with Aly, I would assume you may just want to hand this one to him. As far as I'm concerned, it doesn't require a new letter... but I am happy to defer to your judgment. Of course, it would be great if Stewart could just process this one (presumably a no-brainer) along with the last batch, in time for the March Board meeting. I extend my apologies to you and Stewart that this wasn't caught earlier. I'd like to promise there won't be any more but, in the words of ex-candidate for President Phil Gramm, "I'm slow, but I'm not stupid."
