Subject: Needs

Body: I was counting on having the voting machines restored from the October and November meetings for Anna, Bill and Kermit. This puts a monkey wrench in my federal register notice plans.1. I will put the FBI discs in your office so you can start to update the database.2. I need you to restore the voting machines for the October and November meetings for members Hall, Joyce, and Nelson. I need to put those documents into the next federal register notice. 3. There is something weird going on with the review track views "notation voting, for discussion", "notation voting, for discussion by 1-4" and "notation voting, for discussion, all votes cast". They did not seem to pick up all of the documents marked for discussion after we harvested the other day.
