Subject:	changing font size
Body:	I had edited a document and saved it to cathy/corresp drive. Jeri went into it and edited it, and the font , although the computer said Palatino 12 point, changed size. It truly looked bigger, and that just wasn't my opinion. Jeri said the same thing and also added that seems to happen a lot to her. Would you be able to check into this, sese what the problem is. Maybe Jeri can be of assistance . Cathy
