Subject: INS Postponements
CALL REPORTDocument's Author: Ron Haron/ARRB Date Created: 01/09/97 The Players Who initiated the call? Review Board's representative in the call: Ron HaronImmigration and Naturalization Service's representative in the call: Mike LeahyDescription of the Call Date: 01/09/97Subject: INS PostponementsSummary of the Call: INS has concerns about releasing certain information on privacy grounds (alien registration number, address, phone number, date and place of birth). See Golrick-Ortiz Jan 8, 1997 Call Report. I called Leahy to discuss and to ask for clearance to release an alien registration number in an HSCA document. INS wants the alien registration number redacted. Leahy explained that there is currently an internal division at INS as to how much personal information should be released. The FOIA staff (Magda Ortiz) does not want to release such information. I told Leahy that the INS has to resolve what its position is and perhaps put it in writing. In the interim, INS is taking the position that it does not want to publicly release the alien registration number of so-called "minor" figures, but that it will not object to the release of the A-number, and presumably the other personal information, for major figures or figures whose entire INS file is an assassination record. On another matter -- Leahy has not yet processed Marina Oswald's file or the remaining two parts of the LH Oswald file. I told Leahy that that is the top priority.On yet another matter -- INS has sent a list of people whose INS files INS believes are to be deemed assassination records; but INS wants to know if their list is accurate. I told Leahy that, after we review the list, we can give INS further guidance as to the records that need to be processed. Don't forget to compose individual Action Item documents for any action items that resulted from the call!
