**Subject:** VA call

I received a call from Suzanne Meadows in the general counsel's office. She had been unfamiliar with the JFK Act (she works with FOIA requests) and had been putting off a decision on the VA material in the Nagell file. She had called John Machado before calling me. John told her to release the material and not to bother with a 6 (3). (!) John told Ms. Meadows all about Dick Russell and The Man Who Knew Too Much, and about how Nagell was dead...Oh, I could go on. I slap my forehead. Ms. Meadows will speak with her supervisor at the VA and advise him to release their materials. Her supervisor may or may not agree to release the information. Ms. Meadows will fax a letter either to me or David Marwell by the morning of January 29, 1997, and she will return the documents to John Machado.
