Cragg, Chief, Directives & Records BranchAgencys Initial Statement of ComplianceDate Statement Received:OSD has been given until mid-February to submit their initial Statement of Compliance. They need the additional time because they are recalling certain records from storage. In speaking with Dan Cragg, I asked him to locate, if possible, the work files of Judith Miller from 1978. At that time, she was OSD's point of contact with the House Select Committee on Assassinations. She is the person who forwarded to the committee the factual explanation for the circumstances surrounding the destrucytion of the Army Intelligence file on Lee Harvey Oswald. Her files are worth checking to see if there may be back-up/workpapers in connection with OSD's investigation of the destruction of the Oswald file.Review and Identification of Assassination Records to Date (To Be Completed by ARRB before the Informal Interview With Agency)Informal Meeting With Agency (January-February 1997)Matters That Need to be Followed-Up by the AgencyFinal Declaration of Compliance (July 1, 1997)Deposition (August-September 1997)
