Subject: USSS stuff in DOJ classified
Forgive me if Brian has already e-mailed you on this, but he and I came across some USSS documents in DOJ Classified Subject File boxes we were going through at NARA yesterday. We found four, and there may be more before we're through. We copied them for you; they may already be open somewhere else, but in any case they'll need to be cleared and my guess is that -- because there are so few and in such an unlikely record series -- the simplest way to handle it would be to just give the copies to the USSS, as opposed to trying to get them to go out to NARA II to look at them. Your call, but, in any case, I've put the copies on your desk for your review.
