**Subject:** Disposition of ONI, NCIS Records

MEETING REPORTDocument's Author: Tim Wray/ARRB Date Created: 03/04/97Meeting Logistics Date: 03/04/97Agecny Name: Naval Criminal Investigative ServiceAttendees: Henry Persons, Jean Conover, Linda Riddle, Christina Perry (NCIS), Tim Wray, Doug Horne, Chris Barger (ARRB)Topic: Disposition of ONI, NCIS RecordsSummary of the Meeting Lengthy meeting at NCIS headquarters at Washington Navy Yard discussed the following topics:1. So-called "ONI file" on Lee Harvey Oswald (previously accessioned to NARA). Perry and Riddle were assigned to NCIS' "JFK Task Force" that indexed and transferred this record to NARA in 1993. JFK Task Force was created in response to initial "tasker letter" from Navy HQs to DCIS to comply with JFK Records Collection Act. Perry/Riddle did nothing to "assemble" this file -- it already existed as a single file when they processed it for transfer to NARA. They remarked that this file was actually an NCIS investigative file, not an ONI file, although it mostly contains ONI documents. File had previously been retained at NCIS headquarters (i.e. not stored at Federal Records Center) since HSCA because of historical significance of file. To their knowledge, nothing was done to alter either composition or appearance of file before it was transferred intact to NARA.2. Henry Persons reviewed procedures and guidelines for indexing, retention and destruction of NCIS/ONI records. Mr. Persons referred us to additional contacts at NARA (Dick McKay) and ONI (LCDR Terri Pike) regarding current disposition/location of any remaining ONI records relevant to "collateral" topics (e.g. anti-Castro Cubans, records from ONI field offices, etc.).3. Any personal security investigations or other investigative files generated by ONI or NCIS would be entered in DCII database (already searched by ARRB staff).4. Any ONI/DCIS records related to protective services (i.e. any assistance provided to Secret Service in support of presidential trips) falls within temporary record category that would have been destroyed after 15 years.5. Wray provided extract from HSCA Staff Report regarding alleged Marine Corps CID post-assassination investigation into activities of Lee Harvey Oswald, and asked for any advice or assistance they might be able to provide regarding where such records might presently be stored, if they exist. Best recommendation: personal papers of Marine Corps Commandant, Marine Corps CID records. Subject investigation, if authentic, may have been handled outside normal investigative channels.6. Persons has previously examined several defector files without finding any results relevant to JFK assassination or LHO. Don't forget to compose individual Action Item documents for any action items that came from the meeting!
