Subject: INS file documents

Body: Do you have a deadline for that ONI document from the INS file? (That ONI doc is now in my possession.) I have Joe Masih, Tim and myself putting togteher a package of docs that need ONI attention for presentation to their declasser; this way, we don't have to go to her with only one document. I expect that unless this is a hgih priority, it will take a couple of days to compile this package, and a couple more for her to do what she needs to do and get them back to us. I would think that we could have them for you by the time the Board is here next Thursday, unless you want ti sooner. Is this acceptable?
