Subject:	Hosty Notes
	FYI, ABC news called regarding Hosty press release. We faxed copy of his notes to the Washington Bureau and to ABC World News Tonight office in New York City. ABC said they may want to video tape the original notes. I left a voice mail message with Steve Tilley alerting him to the possibility. I'm doubtful, this late in the day, that ABC will commit resources to that endeavor. Time Magazine picked up on the AP story and may also want to photograph the Hosty notes. I again alerted Steve to that possibility. Time's Lissa August was very interested in the story, talking with Hosty, photographing the originals, receiving a copy of the Annual Report and being added to our release list. I discussed possible future press releases with her, in an off-the-record discussion, and she seemed very excited about possible future stories. She said the Time weekly budget meeting is Monday and ARRB will be discussed. Not bad for a Wednesday.Tim is reviewing the information from Chris on the NSA stuff. He's also trying to confirm if this was the information Earl Warren was referring to when he said that some documents would never be released. That's a great story hook. We will run the press release by NSA when it is finalized here and then bang the drum loudly.David was somewhat reluctant about the WXYT talk show. He's giving it some more thought. I'll check back with him on whether to pursue the interview. Meanwhile, I expect AP to interview Jack when he's in town for the next Review Board meeting. I expect we should go to AP studios for the interview to get the best sound quality. AP was very receptive. That's why they're the best.Thanks for the note on WXYT. Let me know what you think about the other
