Subject: HSCA Draft Final Report

Body: I have a vague memory of looking at it at some length, at Jeremy's or Tom's request, and maybe doing a memo on the differences between it and the final published report. Where such a memo would be filed (under "HSCA" for sure, but beyond that I don't know) is anyone's guess and, since I don't have my old word processing files here in Phoenix, I can't search for it for you. I'm not even sure how useful it would be to you or Tom at present. But you might want to ask Cathy to give the files a quick search, for what it's worth.
