Subject:	New computer problems
Body:	Please help:1. turning off the sound-blasting for incoming e-mails2. setting initial font. I have done what is supposed to be done to set up Palatino, but the computer reverts to Times Roman when I turn it off. (What I have done: File/Printer/Options/Select/Initial font).3. How do I get to program manager without turning the machine off and rebooting? (I want to use the HSCA and other databases that are on the initial screen but that do not appear after I have gone into Lotus Notes or WordPerfect).
