Subject: Unused Kodachrome II Film from the 1960s

Body: Alan Lewis of NARA told me today that he has two packages of 33-foot spools of unopened, unused Kodachrome II unslit film which he will allow us to use for any tests, if we desire. We should ask Kodak if they think this is worthwhile. We do not know the storage conditions in which these rolls of film have been kept.
recstat: Alan Lewis bought them from someone at a garge sale, when he purchased their 8 mm home movie camera.
