Subject: Military Team Weekly Update for Wednesday, April 23-Tuesday, April 29

PTC RECORDS:JOE MASIH CONTINUES TO GROOM THIS DOCUMENT PACKAGE IN PREPARATION FOR TRANSFER TO NARA. Eric Scheinkopf has been of great assistance in retrieving additional items needed from PTC microfilm at CMH. Progress denoted below:-16 of 17 CIA documents have been recovered from PTC microfilm; Michelle will search SCIF for the 17 documents Tim passed to Mary McAuliffe--if not found, I will call Mary and ask whether she passed same to HRG.-Army and U.S. Air Attache documents (for which we had RIFs but no documents) were also retrieved from PTC microfilm at CMH.-Today Joe Masih passed to Michelle 6 DOS-originated telexes from the PTC microfilm which she has agreed to pass to Nina Noring for DOS review and anticipated subsequent release.-Corrected RIFs have all been printed (except for the 17 CIA RIFs). Operation Big Lift: Joe Masih is in the process of finding and attaching supporting documents to this as-yet uncompleted report.Califano Papers:Joe has "tickled" Ed Arnold at Dept. of the Army about our letter to Linda Dean requesting that Randy Rakers visit us for a 2-3 day review and declassification session; since we sent our letter, the previous compliance official, Linda Dean, has been replaced (on paper) by a Col. Moore. Right now we are pursuing this through our working P.O.C., Ed Arnold. The revised dates we are shooting for on the declassification session are: 14-16 May, or 21-23 May. Once Randy Rakers signs on to a date, Chris will contact Will Kammer at the office of the Joint Staff, and he will join this initial, first-step declassification effort and review the tabbed folders in the 40 boxes of JCS papers, while Rakers concurrently reviews the Califano papers. In theory, their joint presence at ARRB will enhance the concurrent review efforts on the two sets of essentially Army records.IRR Referrals to FBI:Joe has discussed with Debbie Beatty of the FBI the long-outstanding referrals from the IRR HSCA Sequestered Collection which IRR referred to the FBI some time ago. Joe promised to prepare a list for her of items previously referred to FBI but not yet acted on; she promised to expedite upon receipt of the tickler list.Clemard Joseph Charles Papers:Mr. Bert Hagget (of the Army DCSI's office), as previously agreed upon, has obtained a copy of this file from IRR, and has reviewed it. Joe and I will meet with him at 10:00 Wednesday, April 30 at the Pentagon and perform our final review, designating which documents are assassination records. Mr. Hagget does not believe that there is any information which the Army will want to withhold, but he is aware of third agency equities, and we do anticipate that after we flag which documents are assassination records, he will have third agency referrals to follow-through on.NSA:During last week's Board Meeting, Christopher presented to the Board 7 SCI documents (out of an original group of 85 documents) which NSA wanted reconsidered. The Board approved the requested postponements which were the cause of the reconsideration. (I believe the Board also approved the
