Subject: Response to DAIG's May 5 letter

Jeremy, Joe has asked DAIG exactly what I asked him to. We want straight answers to simple questions, and are trying to pin them to a deadline, since all their legal advisor, Colonel Michael Neveu, told us in his recent letter is that they were going to be late meeting our target date of April 12. It is disappointing that Joe can never get the POC identified by Colonel Neveu to come to the telephone. You should remember that Joe has facilitated some of the concerns in Neveu's letter of May 5 through his facilitation of their concerns with IRR; IRR has responded to those concerns both to us and to DAIG. If we do not get an answer soon to Joe's two simple questions, I will come to you soon and tell you that it is time for you to call Colonel Neveu, DAIG Legal Advisor. Let's give them 2 or 3 days. Review Board's representative in the call: Joseph Masih Department of the Army's representative in the call: Lt. Colonel Stockel Description of the Call Date: 05/09/97 Subject: Response to DAIG's May 5 letter Summary of the Call: For the last three days I have been leaving messages for Lt. Colonel Stockel at the IG office. Today I called again and once more I was told that Colonel Stockel was in a conference. I was asked by another Lt. Colonel (who answered the phone) whether I had a message. I told him that I have called every day for the last three days and then said the following: 1) This call is in regards to DAIG's May 5 letter in which they raised the issue of classification markings on the Nagell file documents which they felt INSCOM needed to review. 2) I said that I had called INSCOM and asked them to review the markings, and that they did and said that on May 6 they sent a fax to DAIG. So did they receive the fax? 3) Will DAIG be able to review their equities in these documents and have them ready by May 30 for IRR? I proceeded to tell him that I need a simple yes or no answer to my two questions. Don't forget to compose individual Action Item documents for any action items that resulted from the call!
