Subject: almanac
Sunday (Mother's Day) -- "Mother is not a person to lean upon but a person to make leaning unnecessary!"Monday -- Three Chilly Saints (feast days yesterday, today, and tomorrow) traditionally bring cold weather. (ed. [LD] note: totally not true -- Sunday in the 70s, Monday in the 80s)Tuesday -- Midwesterners, plant your corn now.Wednesday -- If you would have your business done, go; if not, send. (First Quarter Moon)Thursday -- Woodchucks (also called groundhogs) live east of the Rockies, marmots to the west. (ed. [LD] note: A cool fact, but weird. We used to see these animals all the time in Kansas, and Billy (who grew up in Boulder, Colorado) would always call them marmots. Of course, he is also a Ph.D. in biology, so I guess he knows what to call them. I'm confused.)Friday -- Shear sheep during the light of the Moon.Saturday --
Body: The color green helps soothe nerves and promotes general healing.
