**Subject:** Military Team Weekly Update for Wednesday, May 14-Tuesday, May 20

DIA: Meeting of Military Team with DIA Compliance Official and Historian was held on Wednesday, May 14. See Call Report.NAGELL FILE AT DAIG:Upon his return, I will be accepting Jeremy's offer to interface with the Legal Advisor for DAIG, who has inserted himself into the process of review of the IRR Nagell file. We have been unsuccessful in getting DAIG to commit to when they will complete their review and get this referral back to IRR.PTC and BIG LIFT:Joe Masih is working on wrap-up of these two projects and will report status to me prior to his departure from the ARRB May 23.JCS PAPERS (40 boxes):Based upon general guidance from Tim Wray, the Joint Staff went through the 40 boxes at NARA and flagged those documents which they felt met our broad criteria for assassination records, or assassination-related subject matter. Christopher, with some assistance from Joe and me, has been laboriously cataloging those documents flagged in each box, by date, subject and classification. We owe a response to the Joint Staff (Ed McBride) on which documents we consider assassination records, and which of these are classified and require Will Kammer's declassification review. [They will schedule declassification review when they hear from us.] Christopher's written product (to be completed today) will be used during both our evaluation process, and during subsequent visit(s) by declassifiers (such as Will Kammer) as a finder's guide.
