Subject:	vacation
Body:	I would like to take the week of the 16th off for vacation, I will be at the beach and have my pager so in a worst case I could be back to revive servers in the evening. I will setup the students lab before I leave.Also next week I will be in only on Friday.Also This Friday I will be in around 11pm due to a appt in the morning. Will stay late to make up hours.Let me know of any projects that need attention.
