Subject: Intern project

Ron, In preparation for the students' visit, I usually will write a short, one page or less summary of the project to hand the students as part of their introductory packet. Please inform me if I have correctly summarized the project we discussed Friday. Also, after the summary, I have made a "what we need to do" list for this project. Please inform me if I have neglected any preparatory steps for this project. Thank you.

cmb_____ FBI HOOVER PAPERS PROJECT At FBI headquarters, in the reading room, there are a number of personal papers of former FBI director J. Edgar Hoover. These papers consist of Hoover's personal schedules and appointments, etc. Many, if not most, of these papers are not classified and are available to the public. The ARRB would like to make sure that all of these papers from dates relevant to the assassination of President Kennedy are available. This project will take place in the FBI reading room and will consist of reviewing all of the publicly available material from the dates September 1, 1963 through September 30, 1964 [note to Ron: I arbitrarily chose these dates, using the completion date of the Warren Commission's work as the end date. Please alter if necessary.]. You will need to review these papers to see if any material is redacted (blacked out) and unavailable to the public. If any is, please note the date, page, and general context of the redaction. ARRB staff will use your notes to request the classified version of these papers (where they exist), so it will be important to be as precise and accurate as possible.

_____ Need to do: Arrange for the students to get access to the FBI reading room
Settle the dates in question
Arrange for an ARRB staff member (Reddy?) to accompany the students
Provide them with paper and other necessary material
