Subject: FBI records requested by Hersh

On the two documents that Seymour Hersh is interested in . . . Both documents are already being processed at the FBI as part of the JFK "94-" file. Debbie Beatty is now working on that file, but it is not yet ready for "new process" negotiation, and it hasn't been through the identification aid section at the FBI. Debbie told me yesterday that she thought it would 2-3 months before the FBI would send the documents to NARA.

Fortunately, the FBI intends to release in full the two documents in question, and Carol told me this morning on the telephone that she would not object to our sharing the information in the two documents with Seymour Hersh. She also said that she would not object to his coming to our offices to look at the documents.

Body: She would, however, object to our giving Hersh copies of the documents.
