Subject: HSCA Neutron Activation Analysis

Body: CALL REPORT: PUBLICDocument's Author: Brian Rosen/ARRB Date Created: 07/07/97 The Players Who initiated the call? Review Board's representative in the call: Brian RosenHSCA Staff's representative in the call: Vincent P. GuinnDescription of the Call Date: 07/07/97Subject: HSCA Neutron Activation AnalysisSummary of the Call:I called Dr. Guinn again to follow up on his previous promise to locate and turn over to the Review Board the printout or magnetic tape of the raw counts that he used in creating his report to the HSCA (see previous calls on 9/18/96, 1/30/97, 2/16/97). As on previous occasions, Dr. Guinn informed me that he had been unable to locate the tape but believed that it was still somewhere in his possession. He politely promised to keep on looking and to call me if he finds it. Despite his cooperative tone, Dr. Guinn's track record regarding the tape and other data he used for his report to the HSCA is not good. A more aggressive ARRB approach to obtaining these documents might be necessary.Don't forget to compose individual Action Item documents for any action items that resulted from the call!
