Subject:	Microfilm at CIA
Body:	Barry and I have been discussing the best way to handle the microfilm, We thought a several day (estimate 3) session to decide whether any of the 43,000 pages of what CIA calls the non-related material should be designated assassination records. Folders will be ranked yes/no. If we are all at IP together, we can assign the boxes based on our current areas of expertise or assignments. I know several of you have already reviewed a number of boxes for different projects and would be best able to rank those folders without re-reading. Barry will reserve one of the large conference rooms to give us plenty of space in which to work. If we can finish this project in early August, Barry's summer-only kids can make a lot of progress getting the documents ready for review. Could you please check your schedules for the most convenient times/days and let me know which week or weeks would be best.
