**Subject:** FYI Status of Certain Ford Library Documents  
CALL REPORTDocument's Author: Jeremy Gunn/ARRB Date Created: 07/28/97 The Players Description of the Call Date: 07/28/97Subject: Status of Certain Ford Library DocumentsSummary of the Call:Karen and I exchanges several calls today regarding the status of documents identified in the July 23, 1997 fax from Marwell to Holzhausen. It now appears that there was a data entry error at the Ford Library and that all of the documents on the list should be open-in-full. Karen will have a check made of each document to confirm that they are open. Once she obtains that confirmation, she will let us know and we will attempt to perform a macro to change the status of the documents and forward the information to NARA.
