1. NARA's printed description of Record Group 87 refers to "Executive Protective Service White House and Executive Office Building work project reports, 1964-68 (in Johnson Library)." See page 2. I marked a copy of this and placed it in Jeremy's box.2. Tom: I have examined the NARA correspondence more closely, and I now qualify my earlier observation. It is the NARA documentation of accessions from the Secret Service that refers--repeatedly--to appointment slips. The Church Committee apparently was not aware of the existence of such slips and instead focused on telephone logs and appointment books. If you would like copies of this correspondence or the NARA accession correspondence, please let me know.
