Subject: Re: Transfer ARRB records to NARA

I bcc'd you on this note because I am feeling extremely micromanaged already by Jeremy (not just on this issue). Maybe you and I can talk about how best for me to handle this and perhaps you could even put in a word to Jeremy about my competency level and ability to work with little supervision. When things like this happen I get upset that I wasn't consulted before he took it upon himself to talk to Steve and Cathy. That leads me to believe that he assumes I am not capable of handling this and also leads to the possibility that double work is being done (which we all know leads to conflicts). Thanks and welcome back! To: Jeremy Gunn/ARRBcc: From: Tracy Shycoff/ARRBDate: 09/10/97 04:41:51 PMSubject: Re: Transfer ARRB records to NARA I would like to talk to you about this. Some preliminary work was done on this when we first started the agency. David and I met with a rep from NARA and used their guidance in setting up our file plan. It has always been my understanding that this is an administrative function and therefore I would oversee this process and assign the appropriate staff when the time comes. I gave David a detailed timeline of closedown milestones and incorporated this project into that. I'll try to find a copy and forward it to you. As you know, I have had experience with transferring files to the NARA with the AIDS Commission and am confident that we are on the right track with this already. I, of course, intend to keep you informed every step of the way (as I have always done with David). I would like to talk to you about my feelings on this when you return. I would like to talk to both of you about this. I would like Cathy to be responsible for all R&A records. Tracy let me know whom you think should be responsible for other records. Steve would like to have NARA send an "appraisal crew" to help us ensure that we are doing things the right way and that the transfer is as smooth as possible.
