**Subject:** September 1997 Board Meeting

The board considered 524 documents at the September meeting, over 3/4 of which came from the CIA. Cable traffic to and from Mexico City dealing with operational considerations and personnel matters made up the vast majority of CIA material. The remainder consisted largely of documents relating to anti-Castro operations in general, and included a few documents dealing with Jim Garrison's charges of CIA involvement in the assassination. Approximately 2/3 of the HSCA material consisted of a list of CIA and Warren Commission files reviewed by the committee, which range from 201 files on various persons to cable traffic and other sorts of memoranda. In most cases, a brief abstract of the document is included in the list. The remainder of the HSCA documents relate to Oswald's movements in Mexico City and in Russia, CIA assassination plots against Castro, and the Mafia. Let me know if you want more info...
