**Subject:** Stuff

I have put some items under your door. I have gateway sending me qoutes via fax as well but the basic computers are listed in the online qoutes that I put under the door. The online system is not adding the extra items in and I have circled them.The laptop qoute is not right yet and I hope the fax will clear that up.I will call gateway later this afternoon to check on stuff. The big question is can we order this on Monday or do we need to have it out today. Page me when you get back from lunch and good luck with Davids party this afternoon and see you sat. night.
