**Subject:** Dr. Ernie Rose and Z-Film

He called me this morning and I gave him the answers to questions 3 and 4 in his fax; I told him I had faxed his list to Les Waffen so that Les could determine whether there were any records Dr. Rose might want to review. The answers I gave him were: #3: On pages 1-80, inclusive, of WH 18, are published consecutively, without any omissions, frames 171-334, inclusive, of the Zapruder film, taken from the original; this is certain because there are images between the sprocket holes. #4: I did not notice any copyright markings on any of these pages, and told him so (nor did I see any textual references to same in volume 18). He is hoping that Les Waffen can fax him any documents which might pertain to his other questions. I told him we would have to wait and see--that I was not sure when or how Les Waffen would reply to my fax. Dr. Rose said he is arriving in Washington on October 7, and that he and Kirk Manhardt from Justice will be meeting with Mr. Zapruder on October 9th. I asked him what day he might be visiting NARA, if necessary, and he said that if necessary he would visit NARA on October 8th. END
