Subject: CIA matters etc.

Body: 1. My apologies, but I will not get to the documents on my SCIF shelf before tomorrow. 2. I'm about to request an update (in the next day or so) on J-track research projects from the "old" folks on the CIA team. If you have any thoughts on the matter, please let me know.3. Are the "class of '97" folks on the CIA Team ready to take responsibility for any research projects? Perhaps under the supervision of a more senior team member?
