Subject: alarm system closing
The alarm keypads are reading "low battery". I have checked on this with Chet and the security company and this should not have any impact on alarming the system tonight. It was apparently caused by the power outage.To set the alarms tonight, you may need to hit "reset" and then close as usual. If you have any problems, please call me at 301-464-1789 or page me on 202-996-0373.
