Subject: Church Committee Review
I spoke with Jeremy about our memo yesterday. Apparently I did not exactly understand his thinking on these records. He considers the 'NAR' Church Committee records to have been assigned rif numbers by a clerical error. And we have done a review of their review to assure the public that any assassination related records in their Church Committee Administrative files have been processed under our act by the FBI. And once we have documented the clerical error and the review, the Bureau can 'purge' the rif numbers from their computer system. I will work on the draft memo to meet Jeremy's interpretation.
