Subject: CIA Names Database

Body: Bob, I am concerned about this can we sit down with Manual and Peter Wed. afternoon to discuss.ThanksTo: Chet Rhodes/ARRBcc: From: Peter Voth/ARRB Date: 10/21/97 04:33:03 PMSubject: CIA Names DatabaseI found out that we seem to have two different copies of the CIA names database; one on the floppy and one on the hard drive of the SCIF computer. The one on the hard drive is missing everything after the number NB something or another, while the one on the floppy skips everything from N700 something through NB something. I think the one on the floppy is the only one that's supposed to exist. If you want to take care of it, fine, but I'd be happy to sort all of this out if you want me to.
