| **Body:** | CALL REPORTDocument's Author: Manuel Legaspi/ARRB Date Created: 11/03/97 The Players Who initiated the call? Review Board's representative in the call: Manuel LegaspiDepartment of the Air Force's representative in the call: Cheryle GumaerDescription of the Call Date: 11/03/97Subject: NSA documents with AF equitiesSummary of the Call:Ms. Gumaer returned my call at 1100. I had left a message to indicate our willingness to set a time and date when I could deliver NSA documents that contained DAF equities to her. (Per our conversation last week.) A summary follows:1. I opened the conversation by stating that we (ARRB) are very interested in getting these documents reviewed by DAF as quickly as possible, and without making multiple copies of SCI level documents. She stated, as she did in our last conversation, that she acts only as a "funnel" for AF documents, and as such, her role in the declass process is limited. For example, she said that if she received documents from another agency for declassification, she would send them to the appropriate AF command, who would then deal directly with said agency. Her office would only be informed of the postponement decisions and would not retain copies of the documents. 2. This creates a bit of a problem for ARRB. I had hoped that she could take care of the coordination of these documents quickly and without extra ARRB work (not to mention making extra copies of sensitive material), but it now appears as if we must deal directly with the command which is mentioned in the documents. 3. I informed her that I would be in contact with NSA to determine which command is affected by the information in the documents, and that I would keep her advised as to any decisions made.ENDDon't forget to compose individual Action Item documents for any action items that resulted from the call! |
