Subject:	Fast Track Data Entry
Body:	Janice,I don't know whether Kevin already mentioned this to you, but just in case he didn't. . . .When you enter FBI documents in Fast Track, please click on the "Lookup Info" button that appears next to the RIF number before you save and exit the screen. That button pulls information about the document from other databases and allows us to determine which files the documents came from. If you have any questions, let me know.Thanks,Laura
