Subject:	Residual HSCA Numbered File Documents
Body:	Sydney, I left you off of the list below, but there are six Warren Commission documents that need to be handled. They often turn out to be FBI documents, but let's take a look.In our as-yet-unending effort to completely finish the HSCA documents, we have reduced the outstanding issues to a (hopefully) manageable level. And each of you has a small but vital role to play in this effort. We have been cross-checking information between the original numbered files here in our scif, the copies of the numbered files out in the Collection at NARA II, and the computer data available to each of us. This information has been distilled into a database on Notes called 'HSCA Cross-Ref.' The breakdown of documents by agency, responsible staff member and number of documents is:FBI Kevin/Laura 190CIA Bob 60IRS Laura 10DOD Doug 7INS/misc. Ron 7NSA Manuel 5Misc. Jeremy 4USSS Kim 4.(I should note that the numbers could be just a little off, and folks should look for their names, and not stop looking just because they've already hit the magic number listed above.)If each of you would open 'HSCA Cross-Ref.', and search for your name or agency you would find the HSCA number, the RIF number and a bit of information about the document. Then you could go to the Numbered File boxes in the SCIF, look at the documents and make a judgment as to our next move (i.e. should we make a copy and send it to the Collection, should we refer the document to the appropriate agency, has the document been previously referred and we just need to get the appropriate agency to respond to us, etc....). Ideally we would have any claimed postponements back prior to the Board's meeting of January 22, 1998, but our final date should be for the February meeting. Of course I am available to answer any questions, as is Joe.
